RE: MPSC Case No. U-22070 – In the matter of the application of Consumers Energy Company for authority to increase its rates for the generation and distribution of electricity and for other relief.

Dear Mr. Templeton:

Attached to this letter are copies of the following documents:

- Consumers Energy Company's response to 22070-UCC-CE-0445.

A Proof of service has been electronically filed in this docket. Please contact me if you have any questions regarding this matter.

Sincerely,

CC Parties Per Attachment 1 to the Proof of Service

Question:

23. Please refer to the SAP screenshots provided in Consumers' response to U22070-UCCCE-0105, Gast Attachment 1, which indicate ASP and CO plans. Please provide the data requested below by census tract; if the information is not available at the census tract level, please provide it at the finest resolution available (e.g., zip code).

- a. By month, since January 2019 through the most recent month data is available, how many customers were enrolled in each type of ASP and CO plan?
- b. By month, since January 2019 through the most recent month data is available, what were the total residential payments for each type of ASP and CO plan?
- c. By month, since January 2019 through the most recent month data is available, what were the total payments for each type of ASP and CO plan by customers who received a disconnect notice?
- d. By month, since January 2019 through the most recent month data is available, what were the total cumulative historical payments for each type of ASP and CO plan by customers who were disconnected in that month?
- e. By month, since January 2019 through the most recent month data is available, what is the average share of arrears at disconnection that are due to ASP and CO charges?
- f. By month, since January 2019 through the most recent month data is available, how many customers enrolled in each type of ASP and CO plan were disconnected for non-payment in that month?

Response:

23(a)–(f). The Carbon Monoxide (CO) program was not offered to customers after September 2015; therefore, the Company does not have CO program data for the requested period.

A total of 243,598 customers were enrolled in the Appliance Service Plan (ASP) from 2019 through 2024. The Company subsequently sold the ASP business and does not have data beyond 2024.

The remaining requested information is not maintained in a readily accessible or reportable format. The existing system does not support exporting the data necessary to respond to these subparts in Excel or otherwise producing the requested monthly results by ASP. Providing this information would require IT resources to design, develop, and validate new reports and data-extraction processes specifically for this request. Accordingly, the Company is unable to provide the information requested in subparts (a) through (f).
